

From Denmark

Now I've had the time of my life
No, I never felt like this before
Yes I swear, it's the truth
And I owe it all to you
'Cause I've had the time of my life
And I owe it all to you

Yes, we owe it all to you - thank you so much for a lovely week.
We've made new friendships, seen many new things and learned
about interesting legends. We have had so much fun with all the
people from the other countries.
Hope to see you again sometime.

Glamping

We Think it was very funny to live at the glamping, its was an experience that none of us had tried before.

We did a lot of fun things at the glamping place, for an example the kareoke.

It has Been fun to live with all of you and at the glamping overall.

Eventough there was no internet...

It has been nice, learning about all your legends, I especially liked the role play we did today and I just want to say, good job planning the trip, it's been nice

Lina

Because of my and Sophie's birthday that's coming soon, Caitlin and Ana arranged two cakes and came in singing.

It came as a big surprise we didn't expect it at all!!

It was such a nice surprise, and they came with gift as well, we are so lucky that we got such nice friends that were so thoughtful even though Sophie birthday were in a week and my were in two.
